Lisa Pirie-Dominix (Protected Areas Head, Northern Region, CWS)

***Regrets:*** EnuusiQ Jaypoody (absent for medical reasons), James Qillaq (NWB meeting)

***Others Present:*** Jerry Natanine (translation)

**Proceedings:**

**Meeting started at 7pm**

1. Open house to view posters, meeting the committee, get snacks
2. 7:30pm Opening Prayer and Chair and Vice-Chair Opening Remarks (Sam Palituq and Danica Hogan)
3. 7:45pm-8:30pm Management Plan Presentation (Presented by Danica Hogan)
4. 8:30pm-9pm BREAK and Door Prizes
5. 9pm-10pm Open floor open for questions and comments
  - a. Community Member Comment/Question: General comment about growing up there and hearing stories about the area from father

- b. Community Member Comment/Question: Why has it taken so long to make the management plan? Where is the lodge that was talked about? Community has been talking about this since 1990s. Asking because he is envious of other communities that have areas like Ninginganiq and they employ people for tourism purposes. Where is the tourism?

ACMC Response: Danica indicated that the plan has taken a long time partly due to logistical circumstances in the ACMC (deaths, changes in members, etc.) and partly due to the fact that the committee really wanted to make sure they had all of the available information when writing it, and really wanted to take their time to make sure the plan was done right. Sam added to this reiterating the responsibility the committee members felt to go slowly to make sure the plan really reflected what was best for the area and community.

- c. Community Member Comment/Question: Why on the map is the area marked all the way up to the shoreline and some land is included in the boundary?

ACMC Response: Danica indicated that the boundary was established with the community of Clyde River/ the old steering committee before the area was designated in 2010. Sam indicated that the boundary was made to include up to about 1 mile of land around the bay to ensure that tourists/researchers couldn't just camp on the land at the edge of the bay to do work in the area.

- d. Community Member Comment/Question: Educating the public about this is good. Thank you for making things so clear.
- e. Community Member Comment/Question: Why isn't CWS here? They negotiated with the HTO, so we should see more of them since our ancestors negotiated with them. It seems like all of the old work is being forgotten or changing. Why aren't there more meetings in Clyde River?

ACMC Response: Danica clarified that the ACMC works directly with CWS and that she is part of the ACMC as the CWS member. The management plan was created with the committee and CWS, as was agreed upon in the IIBA, and was based on all of the old work with the HTO/Steering Committee that established the NWA- the old work is not being forgotten or changed, the ACMC is the continuation of the work. Sam indicated that all of the ACMC meetings are held in Clyde River and that the management plan was created from documents and interviews that resulted from all of the old work

- f. Community Member Comment/Question: I'm from the HTO and I got the copy of the draft management plan that the ACMC sent us, but could you please share the presentation you just gave as well?

ACMC Response: Danica promised to send a copy of the presentation to the HTO the next day (NOTE: Presentation sent via email Feb.11, 2020).

- g. Community Member Comment/Question: When will the draft be finalized? Asking because TINMCA only took 2 years.

ACMC Response: Danica indicated that the draft will undergo edits once all of the comments from reviewers/this meeting are addressed, then it goes to NWMB and the Minister of ECCC for approval. Can't give a definitive date that it will be due, but ACMC wants to try to have it finalized by end of 2020. TINMCA is going through a different process, so it is not necessarily comparable to the ACMC process.

- h. Community Member Comment/Question: I want this to be finished while our elders are still alive. Make it happen as fast as you can so we can see it become real while they are still alive. I am glad that we can talk face to face.

## **6. Closing comments and Final Door Prizes 10pm**

## SIGN IN SHEET

EVENT: NINGINGANIQ APMC COMMUNITY MEETING	LOCATION: PARISH HALL
DATE: Feb. 10 2020
