3. Permit Applicant: Lindblad Expeditions c/o Arctic Kingdom
Martha reads and explains about the permit application (to explore the Canadian Arctic in Nunavut by the cruise ship M/S National Geographic Explorer for the purposes of tourism).
ACMC discussions and ask questions about the permit, ACMC approves the permit with the following conditions:
 - At Dewey Soper MBS, the shore is very shallow waters
 - All along the beach area is nothing but soft mud
 - The tide is very fast, not safe to walk around

- Soft mud means – anything can get sucked in
- No waste going into the waters

4. Aarluk Consulting

Martha informs the ACMC members that Aarluk Consulting will be delivering a workshop training to hold a management planning workshop which is scheduled for September/October of 2014 in Cape Dorset. It would be a 3 day training workshop, the training workshop would be held at the Huit Huit Tour building as the contract has been set up but not signed yet.

ACMC members are happy and looking forward to the training workshop.

5. Next February Meeting 2015

Martha informing the ACMC members in advance about our scheduled 2 day meeting in February 2015 in Cape Dorset, a contract has already been set up but it has not been signed yet.

This is still not completed as we had a difficult time how to properly deal with it in terms of paying it. We need to select our ACMC logo contest for our next ACMC meeting, we should try and deal with it.
